

ENTERPRISE INTELLIGENCE OS

SYNAPS AI

Upload any business document. Get a 100% grounded AI review, risk assessment, and counter-terms in under 60 seconds.

THE PROBLEM

Businesses Are Blind to **Hidden Contract Traps**

Fragmented Data

Contracts, invoices, and meeting notes are scattered across isolated folders, causing operational paralysis.

Hallucinating AI

Raw ChatGPT tools fabricate facts when reading legal documents. Leaders cannot trust them with real money.

Multi-Year Traps

Auto-renewals and 25% cancellation penalties hide in 40-page vendor PDFs that no one reads line-by-line.

THE SOLUTION

Grounded AI Document Intelligence & Redlining

60-Sec Auto-Redliner

Detects predatory clauses and automatically rewrites them into safer counter-terms with legal rationale.

3D Memory Graph

Connects all contracts, board minutes, and SOPs into an interactive 3D Knowledge Graph with line-level citations.

10-Agent Boardroom

Specialized AI agents (CEO, CFO, Legal, CTO) cross-verify decisions from conflicting operational angles.

Simple, High-Margin SaaS Pricing

Pro Tier — \$7/mo

50 AI credits, 10 document uploads, 3D Memory Graph access, and instant PDF redlining.

Enterprise Max — \$20/mo

Unlimited AI credits, 10-Agent AI Boardroom, Digital Twin policy trainer, and Slack/Teams webhooks.

Merchant of Record

Integrated with LemonSqueezy for automated global tax compliance, instant receipts, and 14-day refunds.

Built by a **Driven Founder**

Founder Story

Shourya Uday Shetty (12th Grade Science Student & Solo Developer, Pune, India). Inspired by father's hotel operational overload.

Live Product

Deployed live on Vercel with Neon PostgreSQL, Supabase, Firebase Auth, and multi-model AI failover.

Validated Need

Tested with real hotel operators and legal leads seeking 60-second contract verification.

THE ASK

Join Us in Building the **Future of Enterprise OS**

Synaps AI transforms raw document chaos into actionable executive clarity.
